

Dear Directors of Training,

We wish to advise you applications for Semester 2, 2010 Academic Posts and the 2010 Registrar Research Workshop are now open.

Semester 2, 2010 Academic Posts

Currently, there are 15 academic placements available to commence July, 2010. These placements are an excellent opportunity for general practice registrars to develop skills in research, teaching, project work and critical evaluation of research. The GPET website has further information, including a report from a recently completed Academic Registrar on her experiences of the post.

<http://www.agpt.com.au/TrainingPosts/AcademicPosts/>

Applications for the Semester 2, 2010 Academic Posts close Friday, 19th March 2010.

2010 Registrar Research Workshop

Applications for the 2010 Registrar Research Workshop are also open. This workshop will be held in Darwin on Monday, 28th June through to Tuesday, 29th June 2010 in conjunction with the Primary Health Care Research and Information Service (PHC RIS) annual conference.

'2010 PHC Research Conference – Primary health care research and health reform: Improving care'

The Registrar Research Workshop is aimed at introducing registrars to the field of research within the primary health care setting. There is also funding to allow a limited number of registrars the opportunity to attend the PHC Research conference.

Applications close COB Friday, 30th April 2010 with further information available on the GPET website. Additionally, an application form is attached to this email.

Should you happen to be aware of any registrars within your area who may be interested in applying for an Academic Post or find the 2010 Registrar Research Workshop of interest, it would be greatly appreciated if you could please direct them to the AGPT website for further information. Alternatively, I would be more than happy to answer any questions.

Kind Regards

Nyoli Valentine
